Creative Digital Media – Yr 10 Elective

The Year 10 Creative Digital Media course provides students with the opportunity to gain fundamental knowledge and skills that enable the investigation and understanding of Creative Digital Media art forms. Students learn to interpret a work brief and prepare developmental work in order to complete practical productions. The major topics focus on developing skills using equipment and software. The theoretical component supports student learning by developing analytical skills and an introduction to art elements and principles.

Major Topics Covered

Video Production
Digital Photography
Animation
Art Elements and Design Principles

Pre-requisite subjects: None

No additional fee beyond the general material charge.
